DATA SHEET & PRICE LIST · SEASON 2027

Bare-root grafted pistachio plants

We grow our plants in Guadix (Granada, Spain), in an open-air nursery 1,100 m above sea level at the foot of Sierra Nevada. We are nursery growers and farmers: we have grown pistachios on our own farm since 2018.

Varieties

Variety	Type	Description
Kerman	Female	The most sought-after variety on the market, and the one that bears the nuts. It's what we grow on our own farm.
Peter	Male · pollinator	Kerman's main pollinator, planted among the female trees to ensure good fruit set.
Guerrero	Male · pollinator	A Kerman pollinator that, together with Peter, helps cover the whole flowering period.

Rootstocks

Rootstock	Common name	Features
Pistacia terebinthus	Terebinth (cornicabra)	Native to our region and very hardy. It copes well with poor soils, cold and drought.
Pistacia atlantica	Atlantica	A vigorous rootstock with strong root development, widely used in new orchards.

The plant

- Grafted and delivered bare-root during winter dormancy.
- Pre-selected, uniform and fully lignified.
- With enough vigour and length to be headed at scaffold height in year one.
- Strong root system: organic fertilisation and wide spacing in the nursery.
- Adapted to cold and water stress.

The service

- Nursery licensed by the Andalusian Regional Government (registration no.: [PENDIENTE]).
- Own mother plants: varietal purity.
- Own transport anywhere in Spain, on planting day.
- Support from our agronomist during the first year.

Prices 2027

Variety	Rootstock	Price per plant
Kerman	*Pistacia terebinthus*	[PENDIENTE] price and volume tiers
Kerman	*Pistacia atlantica*	[PENDIENTE] price and volume tiers
Peter	*Pistacia terebinthus*	[PENDIENTE] price and volume tiers
Peter	*Pistacia atlantica*	[PENDIENTE] price and volume tiers
Guerrero	*Pistacia terebinthus*	[PENDIENTE] price and volume tiers
Guerrero	*Pistacia atlantica*	[PENDIENTE] price and volume tiers

Prices per plant, [PENDIENTE] VAT included / excluded. Transport and reservation terms: [PENDIENTE] to be detailed

How to reserve

Tell us about your project (hectares, location, irrigation and planting date) and we will prepare a no-obligation quote. Your reservation is confirmed once you accept it.
